George E. Grinnell, Esq.  
Grinnell & Grinnell  
Derry, New Hampshire

Dear Judge Grinnell:

In reply to your recent inquiry in regard to the applicability of RSA 356 to the New Hampshire Chiropractic Association and its activities, we have gone into this matter in some detail.

After a careful search it is my opinion that the Chapter is not applicable to the services of a chiropractor and that the legislation is aimed at combinations which seek to control the price of a commodity or article of commerce.

In this situation there does not appear to be any further function of this office to be performed in connection with the present problem but we are of course happy to be of any assistance that we can at any time.

Cordially,

Louis C. Wyman  
Attorney General

cc Wm H. Craig, Jr., Esq.
